LETTERS FROM THE PEOPLE.

Card from Mr. Scott A. Marray.

EDITORS APPRAL—A local paragraph in the APPRAL, of this morning, places me in a false position. I have never sought the superintendency of our schools, I have not asked a single member of the board of education to vote for me, and, therefore, have had nothing to do with the "electioneering" in progress. If my friends should see proper to propose my name whenever the election is held. I will not interpose the slightest objection. will not interpose the slightest objection.
But, if this is done, it will be without any
effort on my part, for I am of the opinion
that the gentlemen composing the board of
education are entirely capable of selecting a
superintendent without any electioneering or
other entirely influence. NASHVILLE, TENN., June 11, 1880.

A Good Suggestion. EDITORS APPRAL—Since to improve the appearance of Memphis has been the plea for the tearing down of so many valuable signs of late, in order that ours may resemble other cities of its own and greater size, would it not be in place to go a little farther, and have the names placed upon the corners of the streets throughout the city? We have heard repeated complaints from strangers that it is almost impossible to go where they wish to transact business without either going out of their way or constantly inquiring. ing out of their way or constantly inquiring Now that all hanging signs have been re-moved, it will be still more difficult for coun-try people to come here and transact business without great loss of time and difficulty. We advertise our business houses by street and number, but the street is nowhere to be

found, while similar numbers are seen on every street. Messrs Editors, we believe much good has been accomplished through the columns of your energetic paper. Do you not think this is next in order? MERCHANT. Nuisance that the Police Should Abate.

EDITORS APPEAL—Your argus eye has often discovered and your fearless sheet exposed many abuses and nuisances, and advocated improvement in every shape. Will you permit one of your colored readers to point out a flagrant evil—one especially, perhaps only, affecting the people of his race? He will tell you of the existence in our city of a criminal practice, against which fitty years of freedom would not sufficiently educate a great number of our colored people to successfully combat. I refer to the practice of a great many shopkeepers on Main or Beale streets, who, not content with the lavish display of goods on side walks and in windows, accost, collar and even drag every country cousin of our who passes, into their stores. ousin of ourr who passes, into their stores. To see these poor people stopped, even in behicles, on horse or mule back, or on the opposite side of the street, held by the coat-tail or collar until finally the spider succeeds in persuading the fly into his deal Here the curtain drops, for what transpires within, the

With contempt, with contempt they hurried him
To the hole, where with scora they buried him—
To the hole, to the hole where they scorafully put
The mortal remains of that marvelous strut,
That tass of the locks hyacinthine.
That pose of the hip, that sneer of the lip,
That arrogant twirl of the chin thin.
Comb, jowlers, and chin, they tumbled him in,
And buried him allogether,
To the last, long, limp tail feather. Not a tear, not one tear shed we over him, As with dust of the earth we cover him; As in dust, as in dirt we bury him there— Red wattles, and feathers, and hyacinthe hair— In the hole that he dug for the nation. So'd by all druggists JOHN HOLLAND'S Patent Record SOLD PEN is the highest achievement in the manufacture of Gold Pens and the result of experiments for more than twenty years. The "RECORD" Pen is produced by a skillful combination of the two precious and non-corrolive metable 16 km. Gold and Platinsum, while the ordinary gold pen contains an alloy of copper, reducing its fineness without yielding that elasticity, density and steel like temper which the costly Platinsum supplies. The "RECORD" Gold Pen Points are of the best Iridium. (Diamonds.) indestructible with fair treatment, and polished to glass like smoothness.

Steel pan writers have now every objection to gold fairly overcome, and every requirement in a Pen which will endure and not oxidize, squarely met. The "RECORD" Gold Pen is guaranteed to possess Durability, Permanency of Spring and Perfection of Point. Price, \$2.50, sold by all Jewelers and Stationers in the United States.
